

Leanne Trivett S.  
Visual Artist, Photographer, Instructor

### Artist Statement

I am a visual artist that uses photography to narrate identity in Experimental Self Portraiture, to explore subjects in abstract, and to create images that show how details and color interact in the world of emotion. My theatrical and vocal performance background inspires me to connect to self and create characters with dynamic stories. I like to capture scenes from my play, and I also like the out takes. It is my desire to connect to the viewer in a meaningful and emotional way by exploring multiple sides of me: the light and dark, the quiet and the movement, and the smooth and textured. I use my camera and eye for detail to visit the complicated fringe of my personality and my relationships. Every photo I take is a part of my curiosity and “double” inner world. I seek a connection to self and the audience in that space of duality, building a bridge through emotion and humanity. All of my imagery is created by photographs I take with my cameras.

### Bio

Leanne Trivett S. is a photographer and visual artist using her personal photographs to explore experimental self portraiture, florals, and the emotional abstract.
